

A large hexagonal grid of 1000 hexagons arranged in a circular pattern. Most hexagons are black, but a subset of 100 hexagons are colored in various shades of purple, pink, orange, and yellow. Each colored hexagon contains a numerical value. The values range from 100 to 576, with some values appearing multiple times. The colored hexagons are distributed across the grid, with a higher concentration in the central horizontal band.
